Exhibition of large training systems, ready for demonstration on the ground floor

Meeting room

Exhaust gas extraction for combustion engines and steam generators

GUNT Technical Academy

The GUNT Technical Academy is the international information centre for practical engineering education. A visit to the GUNT Technical Academy is always worthwhile – for our customers, our partners, our employees.

Topics that are ready equipped and for which you can register at any time:

- Control engineering, from fundamentals to applications
- Fundamentals of heat transfer
- Fundamentals of fluid machinery
- Assembly and maintenance technology

Request more information on these topics.

Objectives of the Technical Academy

We help you as a GUNT customer to employ your GUNT educational systems in your learning environment with maximum benefit.

We provide specific and detailed support in selecting equipment and systems that perfectly suit your needs. Get a clear picture before you decide.

We offer our customers tailored short courses on experimental topics.

We provide training for our employees and partners so that we can operate in the market with expertise.

Visit the Technical Academy

You can visit for just a few hours or arrange a topic-based one-day to three-day event with us. And the cost? Nothing. You come and you are our guests.

We are looking forward to your visit. The attractions of Hamburg are very close by.
