

GUNT Experimental flumes

Standard or according to customer requirements GUNT always offers a solution

- Modular design: Large variety of lengths and cross-sections
- Versatile accessories
- Short delivery times, fast assembly
- Modern measuring and control technology

External operation

HM 162 309 x 450 mm section

Customised solutions

Design and manufacture of any solution the user requires

HM 1600

experimental flume 600x1200mm, 20m length

HM 161 Flow cross-

600 x 800 mm

- 2 operating modes: self-supplied, with storage tanks and pumps or via the laboratory's own high and low tank
- Channel with fixed invert
- 600 mm x 1200 mm, 20 m transparent experimental
- Automated, measurement data acquisition
- Three pumps in parallel operation

HM 161.SO

Experimental flume 600 x 800 mm, 15 m length

University of Southampton United Kingdom

- 600 mm x 800 mm, 15 m transparent experimental length
- Two methods for bedload and suspended sediment transport: recirculation method and gravity separator
- Tiltable, automated, data logging

Our quality management system has been certified since 1998.
