

GL 300.01

Cutaway model: worm gear

The technical drawings are part of the instructional material.

Manually operated open samples of various drive components and elements

- view of the details and function of the components
- despite the cut outs the movement functions are completely retained
- operation using a hand crank

These models are fitted to sturdy metal base plates. Lifting handles make the models easier to carry. Technical descriptions and sectional drawings are included so that calculations and design aspects can be used as an educational topic.

LxWxH: 350 x 300 x 140 mm
Weight: approx. 2,5 kg
